A B C D of Quran.surf

Part A - Al hamdulillah - Quran.surf begins a new history in 4 ways!

A-1 Ever first in history – Quran.surf introduced the text highlighting series of HD videos for the recitation of the entire surahs of Holy Qur'an. We already have videos for entire surahs those recited by 16 world famous reciters.

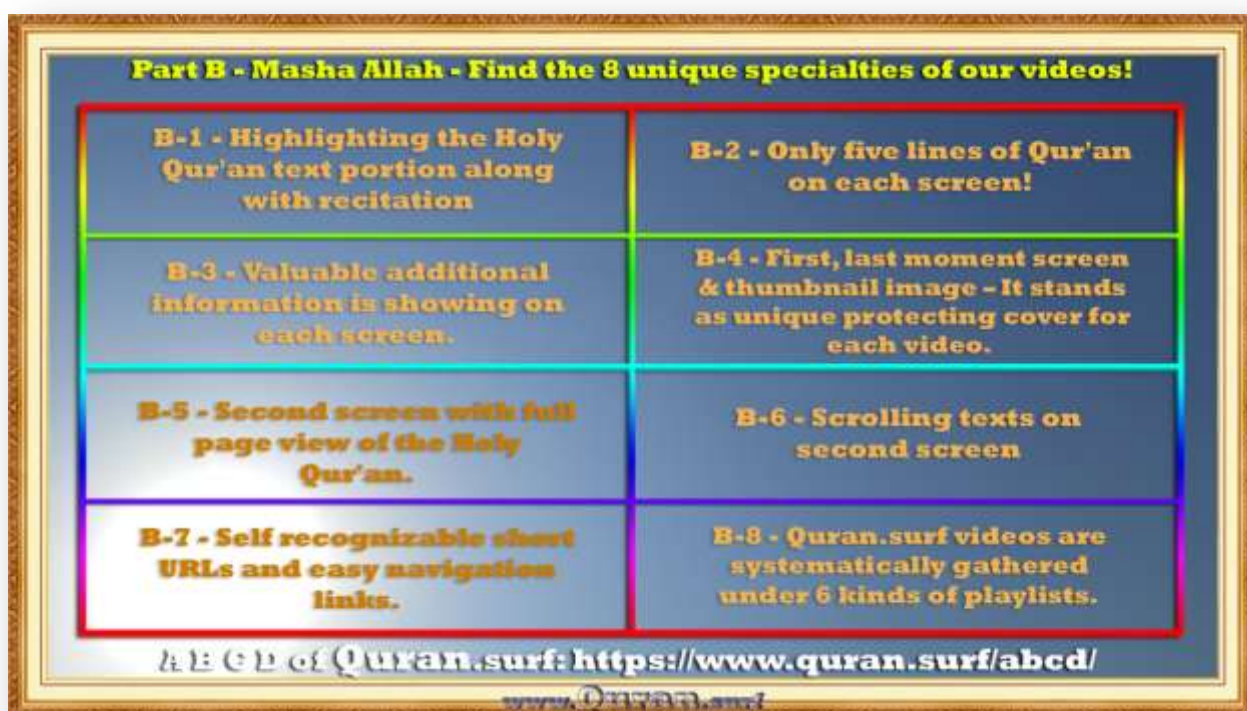

A-2 It began for the first time – In any kind of format, Quran.surf produced separate HD videos for the entire pages of Holy Qur'an. We already have separate videos for entire Qur'an pages those recited by 4 world famous reciters.

A-3 New history began – By utilizing the light version of text highlighting page videos, Quran.surf introduced '[World Wide Online Qur'an Hifz Program](#)'. It has '[Guide to Learn](#)' and '[Self Study](#)' methods. Insha Allah, it is capable of making thousands of Hafizes around the world!

A-4 When we are now providing over 5100 HD videos (except shorts) and 1000 useful playlists, it makes comparative study on different styles of Quran recitation easier than ever.

Part B - Masha Allah - Find the 8 unique specialties of our videos!

B-1 These are highlighting the Holy Qur'an text portion along with recitation. This text portion derived according to the rules and signs of stopping (Waqf) when reciting the Holy Qur'an. Sometimes it comes more than one time in a single line of Qur'an text. Otherwise it may include more than one line of text for one portion. If the Waqf sign prefers to continue recitation of the verses with no need to stop, we also followed it on highlighting portion. Basically, all of these distinct portions are separate images. We use more than twelve thousand such images in our videos.

B-2 Only five lines of Qur'an on each screen; it is best viewable on small mobile screens and big projector screens!

These five lines of text are not derived from a long page. Each of them is similar to a part of the printed page of the Holy Qur'an in Rasm Usmani Script.

B-3 Valuable additional information is showing on each screen. Surah name, its series number, page number and juzh number are showing without interrupting the overall beautiful view of the screen.

By using this information, the viewer/listener can easily refer followings:-

- 1) The required page or surah on a Mus'haf, that's the print version of the Holy Qur'an in rasm-usmani script.
- 2) Other reciters video on the same surah or page by using our easily recognizable short URL that is described here under the [B-7](#) head.

B-4 First, last moment screen & thumbnail image – It stands as unique protecting cover for each video. This screen only appears if the video stays stopped or it paused at the first or last moment. It contained meaningful information including the reciter name and HD video short URL.

It is the custom of the believers to close the Qur'an (Mus'haf) after reciting it. Like the believers, Quran.surf believes that it is disrespectful to always keep the Qur'an open. This noble method of not to keep open always the Qur'an has been beautifully applied in the Quran.surf videos to some extent using this protective cover.

B-5 Second screen - it contains a full Qur'an page view - It is similar to the first moment screen by replacing the central portion with a full page of the Holy Qur'an. Second screen of the video continues on the screen around 5 seconds. The similar kind of view can be seen for a few seconds just before the last moment.

B-6 Scrolling texts on the second screen - While displaying the second screen the video shows three lines of text that scrolls from bottom part to top.

Those lines are:

- Page number / Surah Name
- Name of the reciter
- Short URL for the HD video

B-7 Self recognizable short URLs and easy navigation links.

This feature is a very awesome one to choose the specific video post even after our collection of videos has surpassed thousands of reciters!

This unique specialty is divided into three parts. These are:

- B-7-i : Quran.surf short URLs
- B-7-ii : Short URLs for YouTube
- B-7-iii : Bit links for YouTube

The short URLs follow common format for surah videos, page videos, aya videos and different types of playlists. Explaining in detail what structure it is made of, you might feel bored. But, once its structure is understood, it will surely be appreciated by anyone.

In general, it is difficult for anyone to remember even one YouTube URL. But when you use our "Short URLs for YouTube", it becomes very easy to locate any of our 5100+ videos (except shorts) or 1000+ playlists.

"Bit links for YouTube" is another magical set of links that follows a very identical structure to our YouTube playlists per surah, per page, and all-in-one playlist collections.

Don't panic with these types of short URLs. It is not at all necessary to know these URLs to use our videos and playlists wisely. They are listed very systematically on our homepages and we provide multiple drop-down menus to select the desired one. In any case, short URL is the best asset for those who know their structure well to navigate easily and wisely between videos and playlists from our vast collection.

B-7-i Quran.surf short URLs and easy navigation links.

Meanwhile, our new page videos are being recited by Salah Bukhatir (bktr) and Shaik Abu Bakr Al Shatri (shtr). Insha'Allah, we will update our web pages and related documents as each set of videos is completed.

A few more things about short URLs

Short URLs are very self explanatory and it is a best tool for the teacher to provide specific links to the weak students. The videos are accessible by using these short URLs without installing any kind of special apps.

Beyond the above explained navigation links, whenever posting new video posts Quran.surf provides the next and the previous portion links those are linked respective video web pages. These links will be added just below the video upon the availability of the respective next and previous posts. See the example links from: www.quran.surf/afs-s110/

Easy navigation links are available through following icons:

Quran.surf has a noble goal; so it works without activating ads and monetization.

Quran.surf is using the recitation voice of the world famous reciters. Many of those sounds are already copyrighted by third parties. Quran.surf agree with YouTube that the audio in the Quran.surf videos is "for use only" when uploading each video, regardless of the financial benefits. Moreover, Quran.surf has not been activated monetization on YouTube. It does not display ads on its website or app. We think it's not at all desirable to display ads on Quran videos. But depending on the

preferences of the copyright holder, YouTube ads may be displayed on the video for the benefit they deserve.

We do not aim financial gain through advertising on the channel or website. When we kept such a goal in mind, it made possible to use the copyrighted audios of third parties. That's how such an extensive video collection is possible!

Since monetization is not activated on the Quran.surf channel, YouTube also has less potential for financial gain, so recommendation through YouTube is generally low. Hopefully that will be possible through media coverage and fans of this Quran recitation video channel which continues to be of unparalleled quality.

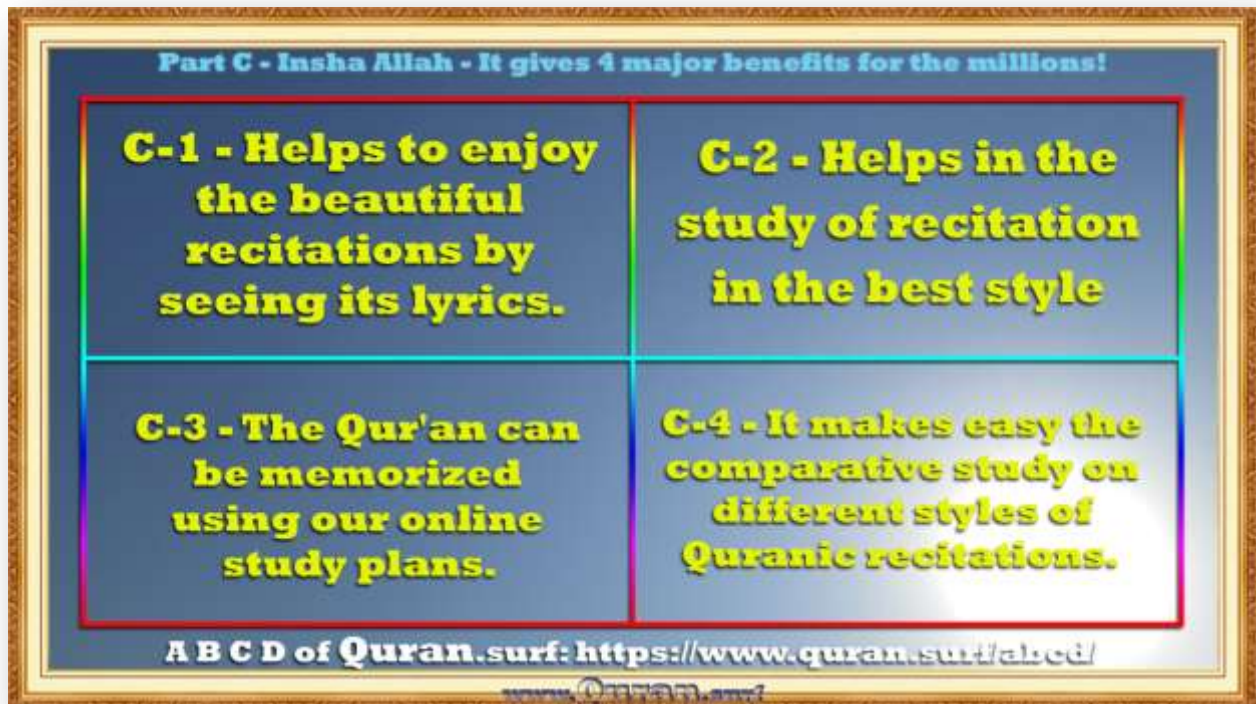

Conclusion on uniqueness of our videos

Quran.surf recitation videos contain only phenomenal content that makes high standard to qualify as the part of any curriculum on Qur'an recitation. Quran.surf not included anywhere an annoying portion even a channel subscription request on our recitation videos.

Quran.surf's high quality videos and diverse playlists of all kinds are unparalleled in history. This fact is easily understood by those who are willing to compare.

Comparison and analytical study on Holy Qur'an recitation.

Our endeavor makes things easier for comparison and analytical study on Holy Qur'an recitation. When we are adopting "the page" as the master portion for our videos, it gives great help for the college and university students who are researching recitation of the Holy Qur'an. The teachers can adopt our HD videos to illustrate it though high end big screens. The users can easily jump between reciter by reciter by using the above explained easy navigation options. It can achieve by modifying URLs as per the following examples:

Examples for page comparison by reciters:

Holy Qur'an Page 2 (Comparison example)

This page contained the portion from a surah

- www.quran.surf/sgmd-2/ (Saad Al-Ghamdi)
- www.quran.surf/afs-2/ (Mishary Al Afasi)
- www.quran.surf/sds-2/ (Abdulrahman Alsudaes)
- www.quran.surf/bktr-2/ (Salah Bukhatir)

Surah 105 Al-Feel (Comparison example)

- www.quran.surf/bsit-s105/ (Abdulbasit Abdulsamad)
- www.quran.surf/bktr-s105/ (Salah Bukhatir)
- www.quran.surf/htfi-s105/ (Ali Alhuthaifi)
- www.quran.surf/shur-s105/ (Saud Al-Shuraim)
- www.quran.surf/afs-s105/ (Mishary Al Afasi)

By using the above kind of short and recognizable URLs, you can easily jump between reciters for your comparisons. **Beyond modifying URLs, to compare the different recitations, there are major roles for the playlists that gather each page and surah separately.**

D-3 Big target – situation change required!

Although Quran.surf has already crossed a historic milestone, there are still big goals ahead. As per the audios collected for this, more than 12900 surah videos are left to be made. More than 77450 videos for pages can be made from it. It may not be fulfilled if my situation continues as it is.

I expect that my years of smart and hard effort for Quran.surf, will be recognized as a good deed to be encouraged. I hope that Allah will open a way and change the current situation, and Allah, the Almighty may bless me for achieving this goal. When this goal comes true, Insha Allah, it will be very beneficial for millions of people and will become a great repository for comparative study of Quranic recitations and it will produce thousands of Hafizes via '[World Wide Online Quran Hifz Program](#)' (WWOQHP). Insha Allah, It is clear that the uniqueness and quality of Quran.surf videos and playlists will help to achieve these goals.

To get a right situation change, you may able to interfere on it. Kindly visit following URLs for further more details:

D-4 Help me to open a way to achieve the exciting development target of Quran.surf

Under D-3, I described some secondary goals and getting daily facilities along with some jobs for others. Here I am aiming some of exciting development target.

There are many reciters of the Holy Qur'an who recite the Qur'an with a very attractive and beautiful voice and style by following tajweed rules. Some of them are far better than world famous reciters. It will be a very unique experience for them who are earring this kind of recitation that steadily flows up and down in very rhythmic order. I extremely like to expand the collection of recitation videos by using these kinds of attractive and heart shuddering recitations.

Beyond creation of videos, it requires a global centre for '[World Wide Online Quran Hifz Program](#)' (WWOQHP) to wisely manage global activities and regional centers.

To ensure increased privacy and security of Quran.surf videos, it is considered that third parties should be avoided and managed through own servers. With this in mind and to make it easier to locate, Quran.surf has included its own short URL in every video. The first thing to understand about a dedicated server is the fact that it takes about 30 / 40 GB of space to store a whole bunch of HD videos for a single reciter.

In these kinds of situations and to overcome the personal limitation, it requires getting a strong sponsor or am looking for a right Reputed Islamic Organization to take over the full responsibilities of this historic venture.
