# **A collection of more than 4600 videos highlighting Quranic verses along with recitations is gaining attention.**

➤ [Other kinds of headings are appended at the end of this press release.](#)

An Indian man has created a completely different and extensive video collection of the Holy Quran as a result of years of continuous effort in his spare time while working in Dubai. It is a collection of more than 4600 Holy Quran videos. Using these, [video playlists](#) have been prepared [for each surah](#) of the Holy Quran. [Each Surah playlist](#) contains videos of more than 16 world-renowned reciters. Each video highlights Quranic verse with a beautiful recitation. This kind of Quran video collection is the first in the video field. So it has become very interesting and eye-catching for everyone who knows about it.

All 114 Surahs of the Holy Quran have never had such special video playlists before. According to the same, video playlists have been prepared [for all the 604 pages](#) based on the pages of Mus'haf in Rasm Usmani script, which is the most used today. Each of these contains videos of at least 4 world-renowned reciters.

There are special [playlists for all 30 juzh](#) of the Holy Quran. Apart from these there are [playlists containing all 114 surah videos](#) and [playlists containing all 604 page videos](#). There are separate playlists for different reciters for these kind of playlists.

[Some special verses like AyatulKursi and AmanarRasool also have special playlists!](#) These were made available through [Quran.surf YouTube channel](#),

[website](#) and [Android app](#). Highlighting of Quranic texts during video playback and a very useful set of [video playlists](#) made Quran.surf exceptional and very interesting.

Khaleel Deli, the founder of [Quran.surf](#), said that [Quran.surf](#) has not included ads or activated monetization as it is working with some sacred purpose. But many recitation sounds copyrighted by third parties are used under their rights and in such places YouTube ads may be displayed on the video for their benefit. Such a compromise was also necessary to make these types of videos available along with recitation by world famous reciters. This historical creation would never have been possible if only financial gains through advertisements were the goal!

Quran.surf's HD videos show only a few rows of the Holy Quran in a large font size on one screen at a time. It can be viewed well on small mobile screens and large projector screens. Therefore, it can be used as an excellent reference method for them who want to listen, learn or teach the recitation of the Qur'an well. Today, video playlists of [surahs](#) and [pages](#) have also become an unparalleled resource for the comparative study of different recitations.

More than 4600 Holy Quran videos and more than 900 very useful video playlists are now available in a well-organized mobile-friendly PDF that is less than 4MB in size. It can be downloaded through the link [www.quran.surf/pdf/](http://www.quran.surf/pdf/). [Introductory message](#) is also prepared for this PDF in more than 100 world languages.

Quran.surf also conducts '[World Wide Online Quran Hifz Program - WWOQHP](#)' using the lite version of [Page Videos](#). [Registrations](#) are being received from different parts of the world for this program which adopts two methods '[Guide to Learn](#)' and '[Self Study](#)'. Khaleel hoped that this would generate thousands of 'Qur'an-hafis' from around the world. To know more about these courses and to download [handbook](#) / [guidebook](#) just follow the link <https://www.quran.surf/online/>.

Quran.surf has stepped into an unprecedented area from the 4444th video. It is a [vertical video area](#) for the Holy Quran. The increased importance of such videos is especially evident against the backdrop of the knowledge that smartphone users hold their phones vertically 94% of the time. The [vertical](#)

[video category](#) is started with a basic structure that can come in vertical format as well as [all types of playlists](#) prepared in horizontal format. More than 10,000 basic images need to be prepared for this. Voices of complete surahs of more than 100 world renowned reciters have already been collected to expand the collection to suit different tastes.

Khaleel fears that if he continues to depend only on his spare time while working, he will lose sight of his goals. It has been now continuing on the point that he has to make at least one video a day regardless of the situation. In order to overcome this situation, it is desired that there will be a situation where these matters can be taken up or supported from anywhere in the GCC countries.

It is only by the immense blessing of Allah that he was able to use his free time for many years to create such a vast and useful collection that has no parallel in history. Therefore, Khaleel hopes that what he has done will be recognized as a trend that should be encouraged and that he will receive positive support to move forward smoothly.

Requesting that this special news be published with due importance,

With thanks and regards,
